

COVID-19 Protocol at Burton and Garran Hall

At B&G, we value the health and wellbeing of all our residents above all. Following ACT Health guidelines, we have adapted our residence to ensure the safety of all students and staff, while continuing to foster a close-knit community.

Some of the measures we have taken include:

Practicing good hand hygiene

Socially distancing (1.5m)

Sanitising communal equipment before and after use

Following the capacity limits in common areas

Having no more than 2 people in a resident's room for more than an hour (4 people for the apartments)

Opening windows where possible to improve ventilation

Using the QR Codes provided at the entrance to each building and each common space to sign in to areas

- At least sign in once per day per area but every time is best practice

- Each residential block – *Check in CBR App*

- Laundry Block – *Check In CBR App*

- Common areas in Central Block – B&G QR Code Linked to Microsoft Form

Drinks, Alcohol and Food is not to be shared between residents unless there is a COVID Safe plan for doing so authorised by the B&G Student Support Team.

These measures may change with further advice from ACT Health and the territory government. We are constantly reviewing our processes and ensuring that all students receive updates on the community guidelines.
